Message from the Chairman & Managing Director

Dear Stakeholders,

I am pleased to share the key highlights and developments from the months of August and September 2025. We celebrated the seasonal festival Onam, a cherished occasion symbolizing prosperity, renewal, and cultural pride. As the Malayalee New Year, Onam fostered a strong sense of unity and enthusiasm across our organization too .

On the business front, we successfully concluded the second quarter with a revenue of ₹10.10 crores, bringing our cumulative revenue for Q1 and Q2 to ₹19.94 crores. Notable project completions during this period include ICGS Amal and RV SS Kama. Our ongoing project ICGS Anagh and FC Neelam continues to progress steadily.

Seablue Shipyard Limited has emerged as the L1 bidder for both the Main Engine Package and the Dry Dock Repair and Allied Services Package for INS Kabra. We are also proud to have secured the Short Refit (SR-3) contract for ICGS Abhinav, an FPV-class vessel of the Indian Coast Guard. In addition, we have been declared L1 for the SR-3 refit of ICGS Amaratya and ICGS Agrim. We have submitted a proposal to NSRY for the docking and launching of WB Ambuda and WB Pamba using marine airbags – a method that underscores our commitment to innovative solutions. While we have experienced some attrition in recent weeks, we are actively onboarding young and dynamic professionals to strengthen our team. I am confident that this fresh talent will contribute significantly to our growth journey.

Our DGM – Operations and DGM – Business Development represented Seablue Shipyard at INMEX 2025 in Mumbai – South Asia's largest maritime exhibition. Their interactions with industry experts and partners were enriching and insightful. It is our aspiration to host our own stall at the next edition of the event. Additionally, I had the opportunity to meet Mr. Sivakumar, GM – Ship Repair, CSL, during a productive business meeting, further strengthening our industry relationships.

We have finalized development plans and initiated work on several infrastructure upgrades, including the installation of solar power systems, repair of Dolphin Point, development of labour quarters, concreting of the wharf and retaining wall, along with broader yard infrastructure enhancements. These efforts aim to improve operational efficiency, sustainability, and workplace quality.

As always, I remain deeply grateful for your continued trust, support, and partnership. Together, we are steering Seablue Shipyard Limited toward a future of innovation, resilience, and excellence.

Best Regards

Manoj Prabhu

Chairman & Managing Director

Sea Blue Shipyard Limited

Message from Deputy General Manager (BD)

Sea Blue Shipyard Limited (SBSL) continues to chart a decisive course towards Vision 2030, shaping itself as a dynamic player in India's ship construction, ship repair, and defence ecosystem. This quarter has been marked by strategic breakthroughs, landmark achievements, and renewed partnerships—underscoring our commitment to operational excellence and growth.

One of this quarter's key highlights was the visit of DIG Vinod Sakharkar, CSO (Tech) (W), Indian Coast Guard, Mumbai, to our yard. His engagement with our teams reflected the growing confidence of stakeholders in SBSL's expanding capacity and readiness to handle high-value, complex assignments.

In a proud milestone, SBSL successfully executed the turnkey refit of Samudra Shaudikama, a Shipping Corporation of India research vessel, at the International Ship Repair Facility (ISRF) of Cochin Shipyard Ltd. This achievement, the first-ever turnkey refit in CSL's history, represents a defining step in our ability to deliver comprehensive, end-to-end solutions.

Our outreach initiatives are also gaining momentum. Senior management's visit to Goa Shipyard Ltd and participation in IMMEX Marine Expo 2025 at Mumbai have exposed SBSL to advanced technologies and positioned us to compete in new tender domains—particularly mechanical and electrical works—beyond our established expertise in block fabrication. Concurrently, proposals have been advanced for the registration of FPV-class refits in the Eastern sector, as well as innovative airbag docking solutions for flat-bottom vessels of both the Indian Navy and Coast Guard.

Discussions with L&T Kattupally are progressing towards collaborative ventures in Chennai, aimed at diversifying into both repair and newbuild opportunities. Meanwhile, significant packages—such as the Dry Dock and Main Engine works for INS Kobra—are set to contribute strongly to our FY 2025–26 targets. Ongoing projects, including the refit of ICGS Anagh and Ferry Craft Neelam, are advancing on schedule, reinforcing client trust in our delivery standards.

On the infrastructure front, the addition of a partial dry dock, telescopic slipway shed, yard concreting, and new berthing facilities is expected to further enhance SBSL's efficiency and competitiveness. Parallel to this, we continue to strengthen our human capital, building a skilled and experienced workforce.

Each milestone is a forward stride in realising our CMD's vision of transforming SBSL into a ₹1000 crore enterprise by 2030.

Lt. CA Thomas (Retd)

Deputy General Manager – BD
Sea Blue Shipyard Limited

Message from Deputy General Manager (OPS)

It's been an exciting and rewarding three months since I joined Sea Blue Shipyard as Deputy General Manager – Operations. I'm proud to be part of a team that exemplifies commitment, skill, and a strong sense of purpose in every aspect of ship repair and refit. The dedication, technical competence, and teamwork I have witnessed here reaffirm that we are well-positioned to take on larger and more complex projects in the near future.

I am pleased to share that we have successfully completed the refit of ICGS Amal, a key milestone that reflects the discipline, planning, and coordination among our teams. The quality of work delivered has been appreciated and is a testament to our collective commitment to excellence.

Additionally, we are now in the advanced stages of completing two other significant refit projects – Samudra Shaudikama and ICGS Anagh. Both projects are progressing well, and I commend the teams for their relentless efforts to maintain quality standards while adhering to tight timelines.

Our collaboration with M/s Cochin Shipyard Ltd. (CSL) for executing turnkey refits at the International Ship Repair Facility (ISRF) has further enhanced our capabilities, exposing our teams to high-value work and more integrated operations.

Moving forward, my focus will remain on enhancing operational efficiency, empowering our teams, and introducing systems that foster continuous improvement. I believe that open communication, accountability at every level, and a shared vision for excellence will enable us to deliver even better results.

Let us continue to support one another, innovate where needed, and take pride in the critical work we do. Together, we can steer Sea Blue Shipyard toward a future of sustained success and industry leadership.

K. Rajesh Kumar

Message from Manager - Admin

Recent upgrades at the yard have enhanced functionality, appearance, and working conditions, creating a more efficient and professional environment. Renovation of administrative offices and meeting rooms includes modern interiors, improved lighting, ventilation, and upgraded workstations, making the workspace more comfortable and productive. Additional store space and optimized internal layouts now ensure smoother operations and a welcoming setting for both employees and visitors.

A regular maintenance schedule upholds cleanliness and hygiene, fostering a safe workplace. Updated signage and safety instructions improve accessibility and compliance, providing clear guidance for daily operations. Structural enhancements, such as reinforced anchors with added piling, have boosted pulling capacity in balloon docking, increasing operational efficiency.

On the legal front, expertise in corporate, labour, and regulatory laws has strengthened compliance, reduced risks, and supported sustainable growth.

Together, these initiatives reflect a holistic approach to operational, structural, and administrative improvement, fostering safety, efficiency, professionalism, and long-term sustainability.

Manager Admin
Nithesh

Message from CFO

The Company has recorded a turnover of ₹16.83 crores up to August 2025. Despite certain delays, and some anticipated delays, in receiving payments from key clients such as the Indian Navy and Coast Guard, prudent financial management has ensured that routine operations remain unaffected.

An outcome of improved performance and the active role of qualified professionals is the growing interest from banking institutions. Several banks have approached the Company with favourable terms, offering working capital facilities and term loans to support future growth. This reflects the rising confidence of financial institutions in the Company's long-term potential.

Though capital investments in new machinery and infrastructure are yet to be finalized, the Company is evaluating advanced design options and consulting industry experts to ensure decisions meet future industry requirements.

Ongoing collaboration with Cochin Shipyard Ltd. on a Shipping Corporation of India project highlights the Company's ability to expand beyond its existing shipyard facilities. The management values employee dedication and teamwork, confident of surpassing previous turnover records this financial year.

Balakrishnan P S
Chief Financial Officer

Insights from Production

The Production Department continues to maintain strong momentum, overseeing a diverse range of ship repair and engineering fabrication projects. Our emphasis on timely execution, precision workmanship, and uncompromising safety standards remains the foundation of our operations. Presented below are key projects currently in progress or recently completed at the yard.

Ship Repair Projects

1. Samudra Shaudhikama – Research/Survey Vessel

- Owner: Geological Survey of India
- Work Done: Turnkey refit project for Cochin Shipyard Ltd
- Work Period: 02nd August to 30th September
- Completion Status: 95% complete

The research vessel Samudra Shaudhikama, owned by the Geological Survey of India, was inducted into the ISRF facility of Cochin Shipyard for a turnkey refit package. The scope includes essential structural maintenance, docking operations through ship lift, and associated hull inspection and repair works. Progress has been smooth, adhering to the highest standards of quality and safety. About 95% of the work has been completed, with the vessel already undocked and final-stage activities underway. The project is strictly on schedule and will be delivered within the stipulated timeframe, marking another milestone in supporting national research and survey missions with timely, high-quality repair services.

2. ICGS Anagh – Fast Patrol Vessel

- Owner: Indian Coast Guard
- Work Done: Short refit
- Work Period: 02nd August to 31st October
- Completion Status: 90% complete

The fast patrol vessel ICGS Anagh, part of the Indian Coast Guard fleet, is presently undergoing a short refit package. The work scope covers vital underwater maintenance, including hull inspection, cathodic protection replacement, minor hull plating renewal, and other afloat repair jobs critical to operational readiness. Approximately 90% of the work has been completed, with the vessel already undocked and in its final stages. The project is progressing smoothly and is expected to be completed ahead of schedule. The successful delivery of ICGS Anagh will further demonstrate our commitment to supporting the Coast Guard's mission readiness through timely and reliable services.

The Production Department remains steadfast in its focus on quality, precision, and client satisfaction.

APPRECIATION FOR SUCCESSFUL COMPLETION OF SHIP REFIT - ICGS AMAL

Sir,

1. On behalf of the Indian Coast Guard, I extend my sincere appreciation to M/s Sea Blue Shipyard and its dedicated workforce for the successful completion of the under water repair package of **ICGS Amal** during Jul 25.
2. The refit project was a complex undertaking that required precision, technical expertise and close coordination. Your team's professionalism and commitment ensured that all activities were executed efficiently, maintaining the highest standards of quality and safety. Despite the challenging scope of work, the shipyard adhered to timelines, reflecting excellent project management and strong organisational capability.
3. The restored operational readiness of ICGS Amal greatly enhances the Coast Guard's ability to fulfill its mandated roles of maritime safety, security and environmental protection. The high quality of workmanship and meticulous attention to detail exhibited during the refit have reinforced our confidence in M/s Sea Blue Shipyard as a reliable partner in maritime capability sustenance.
4. We deeply value this partnership and look forward to continued collaboration in future projects of national importance.

With best regards,

(Vinayak Srivastava)
Commandant
Deputy CGRPS

Onam celebration was held at the International Ship Repair Facility, Kochi

Message from - Human Resources

At Seablue Shipyard Ltd., we value our people as our greatest strength. This month, we welcomed new colleagues, celebrated team birthdays, and recognized outstanding contributions. Guided by our values of quality, safety, and innovation, we continue progressing together with dedication, professionalism, and a shared vision for greater success.

Welcome Aboard – New Joinees (August & September 2025)

We are pleased to welcome the following professionals to the Seablue family:

- Prasobh P R – Senior Engineer – Production
- Vivek V – Assistant Manager – Purchase & Procurement
- Abhiraj M – Senior Executive – Purchase
- Karthik Mahesh – Junior Engineer – Production
- Sheena P Salim – Junior Engineer – Production
- Amruthanand C A – Executive – Human Resources
- Litty Sebastian B – Junior Engineer – Production
- Rajamani P – Manager – Production
- Sarun P S – Senior Engineer – Paint & Blast
- Mohammed Abuthahir – Senior Engineer – Production
- Basil Zaman E – Junior Engineer – (U & M)
- Sreekanth Sunil Kumar – Assistant Supervisor – Design
- Keerthana K P – Junior Engineer – BD & Comm
- Umachan K Joson – Manager – Electrical, U & M and IT

We are confident that your expertise will add immense value to our organization.

Birthday Greetings

We take pride in celebrating our colleagues on their special day.

🐼 August: Abhiraj M, Alen Richard, Aneesh P R, Antony Kunjumon, Roshith E U

🐼 September: Abin Saju, Kamal Raj V A, Niju Poullose, Reshma Krishnan

May this year bring you success, happiness, and good health!

Employee of the Month

We are delighted to recognize the hard work and contributions of our employees whose commitment continues to strengthen our operations:

Mr. Rohit Dev, Production Engineer, has been recognized as the Employee of the Month August.

Your dedication and professionalism inspire excellence across the shipyard.

At Seablue Shipyard, we believe in fostering a culture of recognition, growth, and teamwork. Each one of you contributes to our journey of engineering trust and delivering excellence in every project. Together, we will continue to make Seablue Shipyard a leader in the global maritime industry.

Manager HR

Renjith V.S

Celebrating Excellence – Reward & Recognition

Chairman & Managing Director Mr. Manoj Prabhu, Deputy General Manager – Lt. CA Thomas (Retd) and Deputy General Manager (BD), Mr. K. Rajesh Kumar; recognized the dedication and talent of our outstanding employees.

Mr. John Manuel
Welder

Ms. Anitha Padmanabhan
House Keeping

Mr. Babu Raj VG
Fabricator

Employee of The Month

Mr. Rohit Dev
Production – EGINEER

Chairman & Managing Director, Mr. Manoj Prabhu, Deputy General Manager, Lt. CA Thomas (Retd.) and Mr. K Rajesh Kumar, DGM Operations recognized the Employees of the Month for August. Congratulations to all for achieving this milestone!

Staff Meeting -September 2025

Staff meeting was held at SBSL on 26th September 2025, led by Chairman & Managing Director Mr. Manoj Prabhu, along with Deputy General Manager Lt. C.A. Thomas (Retd) and Deputy General Manager (BD) Mr. K. Rajesh Kumar. The meeting provided an interactive platform to discuss key updates, operational strategies, and team initiatives, fostering alignment and collaboration across the organization. Employees were encouraged to share feedback and suggestions to enhance productivity and workplace efficiency. Key achievements and ongoing projects were highlighted, motivating staff to maintain high performance standards. The session concluded with a focus on upcoming goals and collective efforts to drive sustainable growth at SBSL.

New Employees Onboard

Celebrating Birthdays

At SeaBlue, we celebrated team members' birthdays in August and September, with our CMD personally engaging to make everyone feel valued. These joyful moments strengthened team bonds and reflected our commitment to a positive, people-first workplace culture.

Happy Birthday to Our Amazing Team
