Message from the Chairman & Managing Director

Dear Stakeholders,

We are pleased to present the business highlights and progress report for the months of June and July 2025. Despite the seasonal challenges posed by the monsoon, Sea Blue Shipyard has continued to make steady strides across multiple fronts.

We successfully closed Q1 with a turnover of ₹9.5 crore, reflecting our resilience and operational efficiency. Key project completions during this period include ICGS Apoorva, ICGS Urjashrotha, Tug Mahabali, and Tug Balshil. Our ongoing projects – ICGS Amal and FSI Cradle are progressing as per schedule.

Looking ahead, we are gearing up for the execution of new orders, which include two FPVs, FAC-class vessels, and three interceptor boats, further strengthening our robust order book. The launch of INS Kabra is also expected to be a key contributor to our performance. The upcoming six months are expected to witness a robust work pipeline, driven by the confirmed docking of three FPV-class vessels, significant OEM work on FAC-class vessels, additional RRC assignments, and a Navy yard craft project. While we have recently experienced some attrition, we are actively onboarding young and dynamic talent to strengthen our team and accelerate our growth trajectory. Additionally, private vessels Cheriyan and Ubaidulla have arrived at SBSL for refit work.

On the infrastructure front, we are finalizing the blueprint for several strategic developments including:

- * Solar power installation
- * Repair of Dolphin Point
- * Labour quarters development
- * Wharf and retaining wall concreting
- * Yard infrastructure enhancements

These initiatives are ready to be rolled out sequentially upon receiving Board approval.

We are also proud to announce our collaboration with Cochin Shipyard Limited, marking the beginning of operations at the International Ship Repair Facility (ISRF) at Willingdon Island. Recent engagements with DIG Gaurav Sinha, CGRPS and DGM (PR) Captain Ahmed Rafiq, NSRY-Kochi, have opened promising avenues for future opportunities.

We remain deeply grateful for your continued trust, encouragement, and partnership as we navigate the journey ahead.

Best Regards

Manoj Prabhu

Chairman & Managing Director

Sea Blue Shipyard Limited

Message from Deputy General Manager (BD)

SBSL: Expanding Reach, Delivering Results

At Sea Blue Shipyard Limited (SBSL), we continue to advance steadily towards our Vision 2030—driven by operational efficiency, strategic outreach, and an unwavering commitment to defence readiness and maritime excellence.

A defining achievement during the last two months was the successful completion and early delivery of the Indian Naval vessel FB Pradayak—India's first-ever defence vessel to undergo both airbag docking and undocking, a historic feat approved by Naval Headquarters. The vessel was handed over to the Indian Navy four days ahead of schedule, further reaffirming SBSL's technical capability, professionalism, and commitment to timelines.

In continuation of our momentum, we completed and delivered multiple projects including the successful refits of ICGS Apoorva, ICGS AB Urjashrotha, Tug Mahabali, and Tug Balshil. Our growing presence in the Eastern maritime zone was strengthened by the submission of a formal proposal to the Indian Coast Guard for the registration of FPV-class vessels in Timber pond, Chennai. Furthermore, SBSL has submitted competitive quotations for high-value refits of FAC-class vessels, three interceptor boats, and two Fast Patrol Vessels (FPVs), marking our proactive approach to expanding our defence portfolio.

Ongoing projects include the refit of ICGS Amal, FSI cradle fabrication, and key RRC assignments. Looking ahead, the confirmed docking of three FPV-class vessels, major OEM works on FAC-class vessels, additional RRC jobs, and one Navy yard craft promises a strong pipeline for the next 06 months to come.

In a major development, and in line with our CMD's Vision 2030 goal of achieving a ₹1000 crore turnover, SBSL has been entrusted with a turnkey vessel refit project at the International Ship Repair Facility (ISRF), Cochin Shipyard Ltd. This refit is scheduled to commence in the first week of August 2025 and marks a new chapter in our collaboration with ISRF.

With every project, SBSL reaffirms its position as a reliable, innovative, and forward-looking partner in India's maritime growth story.

Lt. CA Thomas (Retd)

Deputy General Manager – BD
Sea Blue Shipyard Limited

Message from Deputy General Manager (OPS)

"May the clang of metal being prepped and the gentle hiss of the hot work and painting become a tuneful symphony—each note heralding growth and prosperity to the yard and our homes." I'm honoured to join Sea Blue Shipyard at such a dynamic and promising stage of its journey. As the new Deputy General Manager – Operations, I see tremendous potential in the work we're doing and the young, talented people driving it forward.

Shipbuilding and repair are industries that demand precision, dedication, and collaboration—and it's clear that this shipyard has built a strong foundation in all three. What excites me most is the opportunity to work closely with our teams to enhance operational efficiency, embrace smart processes, and strengthen our delivery capabilities, while never compromising on safety and quality.

Over the years, Sea Blue Shipyard has earned a reputation for delivering quality refits of Indian Navy and Coast Guard vessels at Kochi. Recently, we successfully completed the refit of FB Pradayak and are nearing completion of the underwater routines of ICGS Amal. Preparatory work is also underway for the short refit of ICGS Amal and NSRY(Koc) vessel Neelam. Additionally, we are proud to partner with M/s CSL Ltd. for the refit of the SCI vessel Samudra Shaudikama at CSL's International Ship Repair Facility (ISRF).

Beyond repairs, the yard has also demonstrated its engineering capabilities by manufacturing a 250-ton load-carrying cradle for the Fisheries Survey of India—another testament to our expanding expertise.

India has a rich maritime legacy, dating back to ancient times when our land was a hub for seafaring and trade. Today, as the nation works to revitalise its shipbuilding and repair sectors, initiatives like the Maritime India Vision 2030 and Maritime Amrit Kaal Vision 2047 aim to place India among the top global players in shipbuilding and repair. This is a timely opportunity for Sea Blue Shipyard to align with the Union Government's vision and play a meaningful role in strengthening the country's maritime infrastructure and capabilities.

Growth brings both challenges and opportunities, and I believe with clear communication, shared goals, and a culture of continuous improvement, we can achieve remarkable progress. My focus will be on empowering teams, optimising workflow, and building systems that support sustainable growth.

Together, let's take Sea Blue Shipyard to new heights with innovation, collaboration, and pride in our craft.

Best Regards
K Rajesh Kumar
DGM (Operations)

Message from Manager - Purchase

Procurement Highlights – June & July 2025

During June and July 2025, the Procurement Department at Sea Blue Shipyard Ltd. demonstrated strong momentum through proactive sourcing, effective coordination, and timely delivery of critical materials across major projects.

Key Activities:

- FB Pradayak: Procured main engine parts, valves, trusswork items, and fire hoses.
- ICGS Amal: Secured water jet spares, valves, marine paints, and AH 36 plates.
- FSI Cradle: Delivered civil work materials, paints, and other high-grade components.
- ICGS Anagh: Currently in the pre-planning stage, with marine paints and anodes already ordered.

All procurements followed strict technical and IRS-approved standards, supported by strong vendor engagement. Strategic sourcing practices ensured cost-efficiency and reliability, avoiding disruptions to project schedules.

A significant development this period was the formation of a structured procurement operations team. The team focuses on refining workflows, improving supplier planning, and collaborating closely with project engineers to anticipate material needs.

Looking ahead, the department will continue strengthening supplier relationships and embedding resilience into procurement processes—ensuring enhanced precision, agility, and timely support for upcoming projects.

Vivek Pai
Manager – Purchase

Message from CFO

The company recorded a turnover of ₹24.23 crores during the financial year 2024–25, achieving a net surplus of ₹3.40 crores after tax. This includes over ₹13 crores in turnover during the last quarter (December 2024 to March 2025) of the previous year.

The surplus has been directed toward external loan repayments and purchase of essential assets. The company plans to invest over ₹12 crores in the current year on infrastructure development and modernization of machinery and equipment. Priority is being given to utilizing internally generated funds for these purposes to ensure sustainable growth.

This strategy is designed to boost profitability, strengthen investor returns, and improve the company's capacity for major repairs with modern facilities. It will enhance competitiveness with larger South Indian companies and strengthen overall brand goodwill.

In line with sustainability goals, the company is adopting energy-efficient machinery and improving waste management to meet environmental compliance and reduce operational impact. Additionally, a phased approach to employee development and training programs is underway, aimed at enhancing skill sets, improving workplace culture, and preparing the workforce for future technological upgrades.

Balakrishnan P S
Chief Financial Officer

Message from Electrical & IT Department

As we sail through the second half of the year, I want to take a moment to appreciate the incredible work done by everyone in keeping our projects on track. From retrofitting older vessels to outfitting new builds, our employees' dedication and technical expertise continue to drive this department forward.

Energy Optimisation – KSEB Contract Demand

We successfully revised our KSEB Contract Demand, eliminating penalties and achieving significant monthly savings for the shipyard.

Project Updates

1. Navy Ship FB Pradayak
 - Main switchboard & alternators overhauled
 - Navigational equipment, motors, control panels, and lighting systems upgraded
2. ICG AB Urja Shrota
 - Same scope of work as FB Pradayak Both projects were completed ahead of schedule. Notably, 85% of the work was done in-house, resulting in improved profitability.

Upcoming Projects

- ICGS Anagh
- R.V. Samudra Shaudhikama
-

New Plans

- Solar Power Transition

We are implementing a plan to upgrade the shipyard to a fully solar-powered facility by installing a 210 kWp grid-tied rooftop solar power plant.

Target: Install 250 kWp capacity to reduce grid and diesel dependency, lower operational costs, and shrink the shipyard's carbon footprint, especially during daytime operations.

- Diesel Generator Upgrade

Plans are underway to replace the existing generator with a more efficient, eco-friendly 500 kVA system to meet rising energy demands.

Let's continue working safely, thinking ahead, and supporting each other through every challenge.

Stay safe and stay sharp.

Best Regards

Ummachan K Joson

Manager: Electrical and IT

Insights from Production

The Production Department continues to operate at a strong and steady pace, managing a diverse portfolio of ship repair and engineering fabrication projects. Our commitment to timely execution, precision workmanship, and high safety standards remains the cornerstone of all operations. Below is a summary of key projects currently active or recently completed at the yard.

SHIP REPAIR PROJECTS

1. FB PRADAYAK – Fuel Barge

Owner: Indian Navy | Work Period: 15th February – 10th July 2025 | Completion: 100%

The fuel barge FB PRADAYAK, owned by the Indian Navy, was inducted into the shipyard for a comprehensive balloon docking repair package. The scope of work included essential structural maintenance, docking operations using air lift bags (balloons), and related hull inspection and repair tasks.

The project was executed smoothly, adhering to high standards of quality and safety. Notably, the vessel was delivered ahead of schedule on 10th July 2025, even though the contractual handover date was set for 15th July 2025. This early delivery reflects the efficiency of project execution, resource planning, and seamless coordination among the SBSL team.

2. ICGS AMAL – Fast Patrol Vessel

Owner: Indian Coast Guard | Work Period: 2nd June – 31st July 2025 | Completion: 95%

ICGS Amal was undocked on 28th July 2025, one day prior to the scheduled date.

The ICGS AMAL, a fast patrol vessel under the Indian Coast Guard fleet, is currently undergoing an underwater repair routine package. The work involves essential underwater maintenance tasks including hull inspection, cathodic protection replacement, minor hull plating repairs, and other afloat repairs crucial to the vessel's operational readiness.

As of now, approximately 95% of the repair work has been completed. The vessel remains docked and final stage activities are underway. The project is progressing as per schedule and is expected to be completed within the stipulated time frame.

The successful delivery of ICGS AMAL will mark a milestone in our commitment to timely, quality ship repair support for the Indian Coast Guard.

GENERAL ENGINEERING WORKS

FSI Cradle Fabrication

Owner: Fishery Survey of India | Work Period: 10th January – 24th July 2025 | Completion: 100%

The Production Department remains committed to delivering excellence through a strong focus on quality, precision, and client satisfaction. By ensuring timely execution, adhering to technical standards, and continuously improving processes, the team plays a vital role in upholding the company's reputation and driving consistent performance across all shipbuilding and repair projects.

SBSL Begins Landmark Turnkey Refit Project for Cochin Shipyard Ltd.

SBSL has been entrusted by Cochin Shipyard Ltd. (CSL) with the turnkey refit of the vessel RV Samudra Shaudhikama at the International Ship Repair Facility (ISRF), Kochi. The refit is scheduled to commence in the first week of August 2025.

This project marks a significant milestone, as it is the first time CSL is awarding a turnkey refit of a vessel to another shipyard, signifying a new chapter in SBSL's growing collaboration with Cochin Shipyard Ltd. and the ISRF.

Project Testimonial

Proudly completed FB Pradayak's refit with flawless UWR work, earning customer praise for quality and reliability.

Proudly completed ICGS Apoorva's special UWR package, earning customer praise for quality and precision.

Highlights of the Month

A proud moment as the SBSL Slipway Docking Team poses after the flawless docking of ICGS Amal, led by Dock Master Mrs. Krishna Balram, and ably supported by Assistant Dock Masters Mr. Abhijith, Mr. Saineesh, and Mr. Abin Saju.

CGRPS DIG Gaurav Sinha from CGRPT, Cmt. Sachin Krishnan M visited for an official meeting with Chairman & Managing Director Mr. Manoj Prabhu.

A snapshot of Captain Ahmed Rafiq, DGM (PR), NSRY (Kochi), with Lt. C.A. Thomas (Retd), DGM (BD), during his visit to SBSL on 4th June 2025.

The Sea Blue Shipyard Staff Meeting was held on June 19, 2025, bringing together employees to discuss key updates, departmental progress, and upcoming initiatives.

A snap shot of Refit progress meeting of Indian Naval Vessel FB Pradayak chaired by DGM (Production of NSRY, Kochi) held at SBSL in the month of June 2025

A Safety Meeting was conducted by Safety Officer Mr. Antony Pramod on June 16, 2025, focusing on workplace safety practices, compliance, and awareness.

On 02nd July 2025, a meeting was held at the CGRPT Office, Thevara, between DIG Gaurav Sinha (CGRPS), Mr. Manoj Prabhu (CMD SBSL), and Lt. C.A. Thomas (DGM, SBSL) to discuss ongoing collaborations and strategic initiatives.

On 02nd July 2025, a meeting was held at NSRY, Kochi, between DGM (PR) Captain Ahmed Rafiq, CMD Mr. Manoj Prabhu, and DGM Lt. C.A. Thomas to discuss key developments and future collaboration.

The staff meeting for July was held on 24th July 2025, addressing key updates and departmental progress.

A Health, Safety & Environment (HSE) lecture for new joiners was conducted on 9th June 2025, focusing on safety protocols and workplace best practices.

Message from - Human Resources

Dear Seablue Family,

As we look back on our journey, I extend heartfelt thanks to each one of you for your unwavering dedication, teamwork, and commitment. Your efforts are the foundation of our achievements in ship repair, refit, and new shipbuilding.

At HR, our mission is to support and empower our people. We are dedicated to promoting skill development, workplace safety, and a culture where every individual can thrive and grow. Together, we aim to build not just ships, but stronger careers and a better future.

Under the leadership of the new management, we've witnessed remarkable improvements across the organization — a more vibrant employee culture, increased operational efficiency, streamlined documentation, strict statutory compliance, a fair and consistent increment system, and a transparent salary structure that aligns with industry standards.

We are also exploring digital transformation initiatives to modernize HR processes and improve service delivery. Our goal is to create a resilient, future-ready workforce that can meet the evolving demands of the maritime industry.

Your voice is important to us — and we're listening. In the months ahead, we will continue to enhance employee engagement, expand training opportunities, and strengthen performance management systems.

Let's remain united in purpose, driven by the core values that define Seablue: integrity, excellence, teamwork, and safety.

Warm regards,

Renjith VS
Manager – Human Resources
Sea Blue Shipyard Pvt. Ltd.

Celebrating Excellence – Reward & Recognition

Chairman & Managing Director Mr. Manoj Prabhu and Deputy General Manager – Lt. CA Thomas (Retd); recognized the dedication and talent of our outstanding employees.

Celebrating Birthdays

At Seablue, we believe in celebrating birthdays as a way to foster an inclusive and welcoming environment. During the months of June and July, we came together to celebrate the birthdays of our team members with warmth and joy. Our CMD personally engaged with employees, making each one feel valued and appreciated on their special day. These celebrations not only uplifted morale but also strengthened the bonds among team members, reflecting our ongoing commitment to a positive, people-first workplace culture.

Happy Birthday to Our Amazing Team

Mr. Abhijith Reji

Mr. Jestin Jai

Mr. Athulkrishna M S

Mr. Akhil Chandran J C

Mr. Emil Scaria

Mr. Arun Stalin

Mr. Kujumon E T
